Notable features:

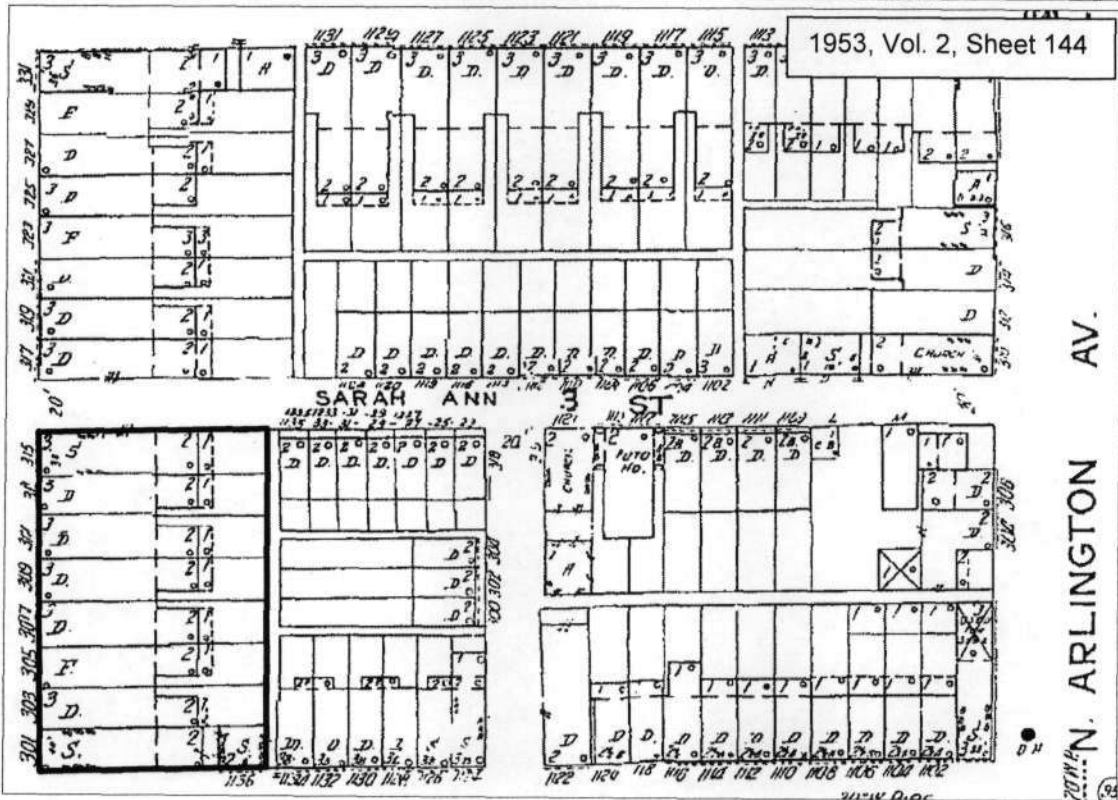

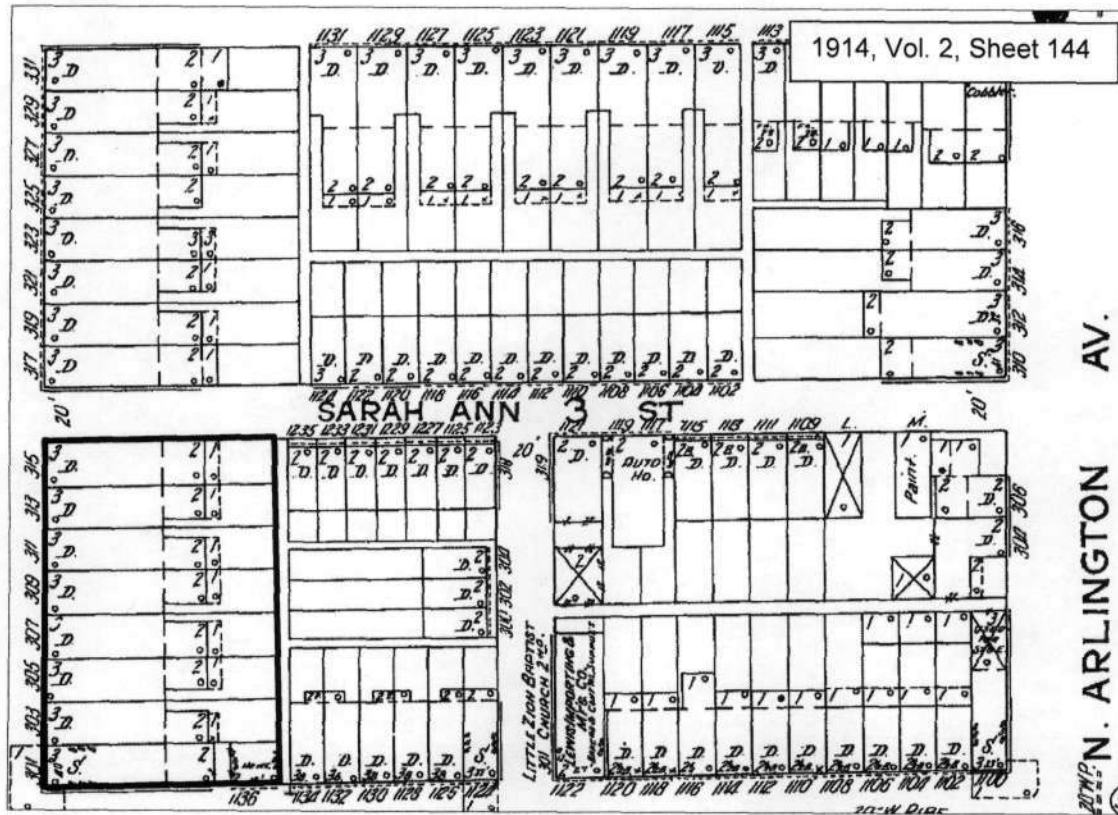

This is a matched group of late 19th century houses with elaborate cornices and eccentric brick details -- pressed and corbelled. Numbers 303, 305 and 309 have been formstoned, their cornices removed. The others are in good to fair condition. Number 301 has modernized ground floor front. Number 315 was, at some point, modified to include a store front.

Environmental context:

The standard of neighborhood and street housekeeping is quite high. This is a quiet block with houses opposite in good condition and good scale; nice street trees.
